Profile

Passionate Frontend Web Developer with strong skills in HTML, CSS3, JavaScript, and React.js. Experienced in building responsive and user-friendly websites. Focused on creating modern UI designs and improving user experience across different devices.

Projects

Green Heaven – Gardening Services Platform

Developed a multi-role web application using React, Laravel, PHP, and MySQL, connecting nurseries, gardeners, and customers. Implemented modules for plant sales, service booking, job bidding, e-wallet payments, rating system, and community forums with role-based dashboards and admin management

Personal Portfolio Website

Developed a personal portfolio website using HTML, CSS, and React.js.
Showcases frontend development projects with a clean and modern UI.
Responsive design ensures it works smoothly on both desktop and mobile devices.

Food Express – Food Delivery Website

Developed a responsive and mobile-friendly food ordering website using React, HTML, CSS3, and JavaScript.
Designed a modern and intuitive user interface to enhance user experience.
Implemented smooth navigation and interactive features for efficient ordering.
